

## Chapter 22: Building Mastery Through Complete Worked Examples

This section is already in the book plan, but it has not been written fully yet. The book owner can press Generate section to write this part with the language model connected to TheoryTrace.

Section plan:

Consolidates the book through extended worked problems: a two-qubit protocol, a three-site spin chain, a harmonic oscillator example, and an information-energy bound. Readers finish able to read research papers and begin independent calculations.
